Publication Date

01 January 2026

Commitment to Achieving Net Zero

1A (1st Alliance) Services Limited is committed to achieving Net Zero greenhouse gas emissions by 2050 for its UK operations. This commitment is approved at Board level and forms part of the organisation's long-term governance and sustainability objectives.

Baseline Emissions Footprint

Baseline Year: 2023

1A (1st Alliance) Services Limited operates from serviced office accommodation where electricity and gas consumption are managed by the landlord. Whilst the organisation does not have direct control over utility procurement, it contributes to energy consumption through its occupancy and operational use of the premises, including a small office and control room environment supporting approximately 5 office-based staff.

In line with PPN 006 requirements, a proportionate share of Scope 1 and Scope 2 emissions has therefore been estimated based on office footprint, staff occupancy, and typical energy consumption benchmarks for serviced office environments, using UK Government greenhouse gas conversion factors.

Scope 3 emissions have been calculated based on operational activities including business travel, employee commuting, and vehicle usage, using UK Government greenhouse gas conversion factors.

Baseline Emissions (2023)

- Scope 1: **0.5 tCO₂e**

NHS
Shared Business Services
FRAMEWORK AGREEMENT SUPPLIER

- Scope 2: **1.6 tCO2e**
- Scope 3 (Business travel and employee commuting): **12.4 tCO2e**

Total Emissions: 14.5 tCO2e

Current Emissions Reporting

Reporting Year: 2025

Operational activity levels during this period reflect a reduced level of business travel and associated emissions, alongside continued use of a small, serviced office footprint.

Current Emissions (2025)

- Scope 1: **0.45 tCO2e**
- Scope 2: **1.44 tCO2e**
- Scope 3 (Business travel and employee commuting): **6.2 tCO2e**

Total Emissions: 8.1 tCO2e

The Scope 1 and Scope 2 emissions have been estimated using UK office energy benchmarks (kgCO₂/m² and per-employee factors) and proportionally adjusted to reflect our small, serviced office footprint.

Emissions Reduction Targets

To support the achievement of Net Zero by 2050, 1A (1st Alliance) Services Limited has adopted the following targets:

- Reduce Scope 1 and Scope 2 emissions through efficient use of serviced office accommodation and energy-conscious operations
- Reduce Scope 3 emissions year-on-year through operational efficiencies and localised workforce deployment
- Achieve a minimum 30% reduction in total emissions by 2030 against the 2023 baseline

Progress against these targets will be reviewed annually and reflected in updated Carbon Reduction Plans.

Carbon Reduction Projects

Completed Initiatives

- Use of serviced/shared office accommodation reducing overall energy demand
- Local deployment of staff to reduce travel distances

NHS Shared Business Services
FRAMEWORK AGREEMENT SUPPLIER

- Increased use of remote management, digital reporting, and electronic documentation
- Route planning and workforce allocation to minimise travel mileage

Future Initiatives

- Continued reduction of non-essential travel
- Increased use of locally based supervisors and officers
- Ongoing review of lower-emission travel options where operationally viable
- Annual reassessment of emissions using updated Government conversion factors

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.
